

TECHNOLOGY INNOVATION FOUNDATION OF IIT PALAKKAD (TECHIN)

TECHNOLOGY BUSINESS INCUBATOR OF IIT PALAKKAD

IIT PALAKKAD

IIT PALAKKAD

Indian Institute of Technology Palakkad began its journey in 2015. Close to the Cochin-Coimbatore highway in Palakkad district, which is also known as the granary of Kerala, this 500-acre campus is situated in a picturesque village surrounded by the Western Ghats. Our motto “Nurturing Minds for a Better World” represents our commitment to encourage and incubate the potential of young minds to create and offer innovative solutions the world needs. The Institute offers Bachelors in five disciplines, masters and doctoral programs in various disciplines including data science and manufacturing.

TECHIN

Technology Innovation Foundation of IIT Palakkad (TECHIN), a Section 8 not-for-profit company, serves as the Technology Business Incubator (TBI) of IIT Palakkad. It functions as a collaborative entity with industry and academia to build an impactful innovation ecosystem that supports entrepreneurs and startups.

TECHIN conducts pitch events, workshops, and hackathons throughout the year to nurture promising ideas and innovative solutions. Our initiatives empower these innovations to achieve commercial success while creating a positive impact on the society as a whole. Innovations / Startups are selected for pre-incubation, incubation, or acceleration based on their stage of growth and are provided multifaceted support to scale up their products and businesses.

SaniTech

SaniTech incubates startups in the Water, Sanitation & Hygiene (WaSH) and waste management domains. In addition to incubation, the center supports skill development and training for maintenance and service personnel on sanitation products and services. It aims to accelerate innovations that promote sustainable sanitation solutions for communities.

Technology Innovation Center

Technology Innovation Center (TIC) offers comprehensive business and technology mentoring support for startups across various other domains. Catering to both early-stage and advanced-stage startups, TIC provides tailored guidance to help entrepreneurs refine their business models, develop technological solutions, and scale their operations.

MedTech

Research Center of Excellence

MedTech supports startups specializing in medical devices, telemedicine, drug delivery systems, injectables, and diagnostics. The center provides access to advanced facilities, industry expertise, and mentorship, ensuring startups receive the guidance needed to bring innovative healthcare solutions to market.

FoodTech

FoodTech promotes innovative startups that address challenges in food production, processing, and sustainability. The initiative provides funding, mentorship, and infrastructure to foster food security, environmental sustainability, and technology-driven growth in the food industry.

AgriTech fosters innovations in precision farming, smart irrigation, crop monitoring, soil health, and sustainable agricultural practices. The initiative provides startups with access to advanced technologies, mentorship, and support to enhance productivity, reduce environmental impact, and build resilient farming systems.
